OBJECTIVE

Software developer with hands-on experience in MERN stack development and front-end engineering, complemented by extensive data analysis skills acquired during his professional experience at NAIC. Combines technical mastery of modern programming languages with business management experience to create data-driven software solutions that achieve organizational objectives.

TECHNICAL SKILLS

- Programming: HTML, CSS, JavaScript, C#, SQL, MERN Stack
- Tools: Excel, Tableau, Jira, Snowflake, PostgreSQL, VS Code, Visual Studio 2022, Git/GitHub, Playwright, Notion, Obsidian.
- AI Tools: Claude/Anthropic, Gemini/Google.
- Languages: Fluent in English and Spanish.
- Active Coursework: Ultimate C# Masterclass for 2026, and Next.js E-commerce 2025 - Shopping Platform From Scratch

WORK EXPERIENCE

Heat Press & Printer Operator Eleve Dancewear

Sep 2025 – Current

- Print & Press ballet wear design patterns
- Website Content Support for Collections and Products
- Liquified / HTML / IT support

Operations & Solutions Specialist Tiger-Rock Martial Arts

March 2025 – July 2025

- Engineered responsive landing page UIs for national events, driving improved conversion rates and marketing campaign effectiveness.
- Bridged technical expertise between the engineering and business teams while developing responsive user interface components for franchise recruitment in the marketing platform.
- Served as a technical liaison between cross-functional teams, translating business requirements into front-end solutions for franchise acquisition landing pages.

BA/QA Project Support Intern

Sep 2023 – Aug 2024

National Association of Insurance Commissioners (NAIC)

- Conduct data analysis using Excel, SQL, and Tableau for data-driven decision-making processes
- Translate official documents to Spanish to facilitate communication with Spanish-speaking stakeholders
- Manage invoices, audits, and metric report generation for consultant teams, ensuring accuracy and compliance
- Provide support to OPTins by conducting audits and quality assurance of PDF file ingestion
- Maintain contact lists for monthly industry and state meetings, facilitating seamless communication and collaboration

- Perform QA testing of SQL queries in Snowflake to ensure data integrity and system functionality

CERTIFICATIONS

- Tableau A-Z Hands-On Tableau Training for Data Science (Udemy)
